

## ***MY FAVOURITE ROOM***

We live in a house and my favourite room in it is my room, which is the most important place for me and all teenagers I suppose. It is not only where I sleep and study every day, but it is also the main meeting place for my best friends, specially in the evenings and on rainy days. I have many happy memories of times spent there such as birthday celebrations, secret conversation with my friends , ordinary daily events such as relaxing by reading books , playing the guitar and training hip hop dance.

It is quite small, but big enough to have two beds, wardrobe for cloths and shelves with lots of books and rectangular writting table by the wall, which tells the story of my life, past, present and future in words and pictures, a photo of me and my older brother, many interesting postcards from all over the world and posters of my favourite singers . On above mentionet table is black and silver computer which I use regularly for internet news. There is also a shelf with lots of CD´ s which I like to listen as music is beside reading my favourite relaxation. All my world is there for everyone who come to visit me. My room has also a large window in front of the writing table , which looks out in the garden on pear and apple tree and one big cherry tree, which is the most beautiful in the spring at the bloom time.

Without doubt some of the happiest times of my life have been spent in my room.
