SPARE TIME

In my free time I answer questions, play online games, chat with online friends, call my friends, go shopping, go for a walk, read a book or magazine, watch your favorite movie, clean your house/room, do something crafty, go to the gym, listen to music, play a sport, play video games, or bake something yummy, talk on the phone.

HOBBIES

Recently, I have become determined to be one hundred percent fit. As a result of this, I have seriously started jogging and swimming. I enjoy jogging. It gives me a sense of freedom and achievement. Another of my hobbies is rearranging the furniture in my house, especially in my bedroom. I like to change the position of my bed, wardrobe and study table. I can't imagine life without any hobbies. To me, a person's hobbies determine the kind of person he or she is. A person without any hobbies would, in my opinion, be a very dull person.

LIVING IN A TOWN /VILLAGE

VILLAGE

Advantage: you live in a beautiful, peaceful area with amazing scenery. We have lots of space and can have animals and grow lots of our own food. And it is a very safe place to live.

Disadvantage: having a driver's licence and a car is very important. There are no public transport. There is not always a mobile reception, people know everything about you,

TOWN

Advantage: public transport. It's very quick and also very cheap. There are a lot of people for hanging out. You can go to cinema, or going to shopping, you can do a lot of interesting stuff.

Disadvantage: you can feel a bit unsafe, no fresh air, traffic jam, people are always in a hurry, fog

HAVING A CAR

In Slovenia if you want to have a car you have to have driving licence. You can get it after the age of 18. Having a car makes your life much easier. You are not dependent on parents or public transport. You can move faster. I can also say the most accidents are automobile accidents. Because young people drink and drive. And a lot of them are over reacting when they drive a friend or a girl friend. One of the reasons is that rich parents buy car with a lot of horse powers, and that child doesn't appreciate the gift, so they don't drive so carefully as if they buy it from their own money. A car with a lot of horse power can easily go out of control, I can say that from my own experience that happened to me after 2 years of driving experience. Having an Audi, BMW or VW can also mean you have a high status position. Buying a car is much easier than maintaining it. Expenditure for a car are: insurance, technical inspection, registration and repairs.
