GROWING UP ON THE WATER

Hi, my name is Lauren. I live in Ventura, California, which has perfect weather and is right by the ocean. For almost 11 years, I have lived on a sailboat. There are a variety of sailboats and motorboats in the dock that we live on. Inside the boat, there is a bathroom, a bunk and two closets. Separated by a curtain, there is a nice sitting area that can seat seven people and a table with a television in one corner. At the back of the boat there is a stove, an oven and a sink so we can prepare meals there. We have a refrigerator and a freezer also. There is a small bunk that my younger sister sleeps in and a nicely sized bed beside it where my parents sleep.

The best thing about living on the boat is the underwater life. Almost every morning we see crabs, lobsters and stingrays. The worst thing about living on the boat is that it is so small.

My parents are English but they moved to the USA just before I was born. My mother is a therapist and my father is a network technician. I go to Anacapa Middle School and take Spanish, math, English, US history and science.

Summer holidays include going to San Francisco, Yosemite National Park, Washington State, Monterey, and many more places. In my free time I watch television. I like Hannah Montana and American Idol, but my favourite show is Planet Earth, because the beauty they capture is spectacular. I love going on the computer and e-mailing people and talking to them online. I do figure skating three times a week and do arts and crafts. I like to play with my dog, Mae, for fun. She is 3 years old and loves playing outside. She is just the right size to have her on the boat. I don't see myself living on the boat in the future, but the memories that I have of the boat will always be fond ones.
