# What is Ecological Agriculture?

Its definition is understood as an agricultural system that is based on ecological principles and applying ecological practices to maintain soil fertility, to manage crop and animal health, and to keep soil and water in a good condition.

A stylized silhouette of a mountain range in shades of teal, located at the bottom right of the slide.

# Agriculture in Slovenia

- ◆ Slovenia has an agricultural area of 785,000 h. (1998), 38.7 total area.
  - ◆ The agricultural sector accounts for 6% of total employment.
  - ◆ late 1980s, early 1990s, garden plot holders started an organic gardening movement.
  - ◆ 1991, people interested in bio-dynamic farming formed a club.

# CONCLUSION

- ◆ We are interested in this way of protection our nature and of course our lives.
  - ◆ Let's do something good for our health, lives and keep nature ready for other generations!
  - ◆ We know that we will manage this challenge, so let's keep together and don't forget that ecological agriculture is cool!
- 

**THANK YOU FOR YOUR ATTENTION!**

**WE WISH YOU A NICE DAY!**

**LOVE FROM SLOVENIA**

A stylized, dark teal silhouette of a mountain range is positioned in the bottom right corner of the slide, extending from the right edge towards the center.
