

IMAGES OF SLOVENIA

I will show my poster to my schoolmates, friends and to my teacher. They will see my poster and recognise the traditional images I show of Slovenia, even if they know some of them.

I felt it was important too choose one of many natural characteristics of Slovenia. The Postojna Cave is one of the largest and most easily accessible world caves where visitors are carried by electric train. Its stalactites, stalagmites and pillars constantly create unforgettable impressions, and the underground cave waters offer shelter to a unique resident, the amphibian *Proteus anguinus* or human fish.

I thought I ought to include an image of food and drink. I decided on black pudding and sauerkraut to represent traditional Slovenian food. Our country is also known by many vintage wines, so I put an image of wine bottle in my poster.

I thought it would be a good idea to include traditional and well-known Slovenian music band, called Avseniki or Oberkrainers. Their folk song "Na Golici" is one of the most played songs all over the world.

I was determined to include a sport because we have a lot of successful sportsmen. I opted for a pair of skis because skiing is Slovenian national sport in spite of bad results during the last years.

I have also made a decision to put a portrait of France Prešeren, Slovenian greatest poet in the poster. He is also author of Slovenian national anthem and he has written many other well-known poems.

There are also many other images of Slovenia, but in my poster I concentrated only on the images, which are well-known all over the world.
