

LIFE IN SLOVENIA

Slovenia is a small country. There are 2 million people. Slovenia is divided into 5 provinces: Dolenjska, Štajerska, Gorenjska, Primorska, Notranjska, Prekmurje, Koroška. The people are a mixture of different nationalities. For example some people are Italians and some Hungarians.

In Slovenia school starts about 8.15am. and finishes between 1.00pm and 3.00pm. People usually start work between six and seven and finish between two and four.

A lot of my friends do sport in their free time. The Slovenians are great sports fans. They like basketball, football, volleyball,...

Ljubljana is the capital city. The population is about 272.220. The government meets at the Houses of Parliament and the prime minister lives at Gregorčičeva 20, 25 Ljubljana.

At the weekend people here like going out with kids, gardening or just staying home. My parents love going out with their kids. Every weekend I go with my family for a walk in the park.
