

PENGUINS

English

A group of fluffy penguin chicks, likely Emperor penguins, are shown in a snowy environment. The chicks have dark heads with white patches around their eyes and white bodies. They are covered in snow, suggesting a cold, snowy habitat. The background is blurred, showing more chicks and a snowy landscape.

LIVING SPACE

- On the most cold continent
- A lot of underski fat

BODY COMPOSITION

- Short-side
- Group of birds
- Good swimmers
- Can't fly

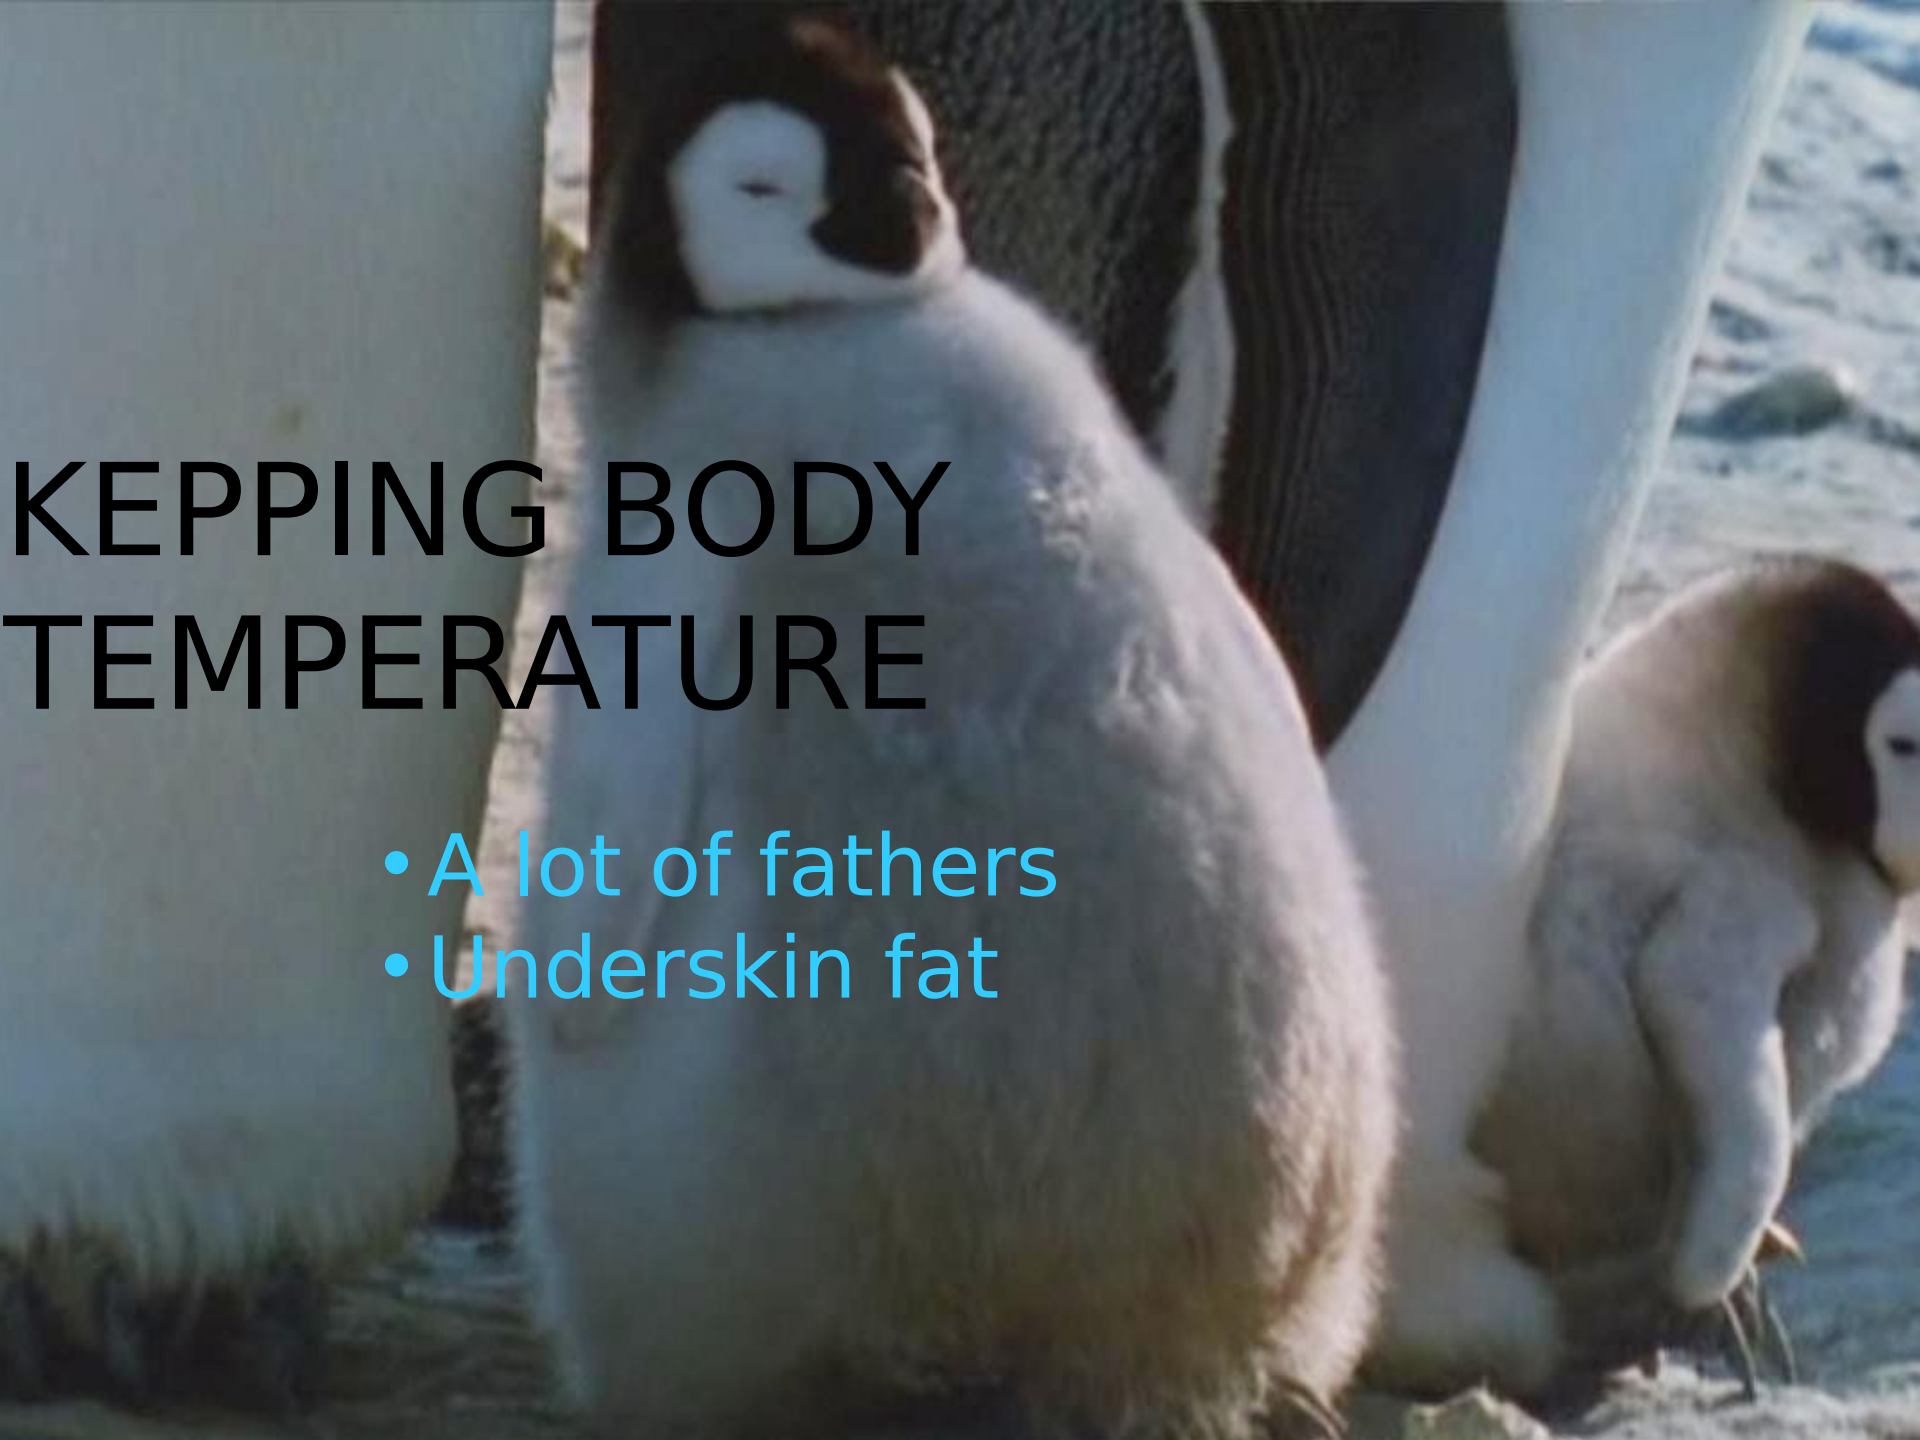

MOVING

- Little and stubby
- Balance -> short tail
- They move their weight from one leg on the other-> rock

KEEPING BODY TEMPERATURE

- A lot of fat
- Underskin fat

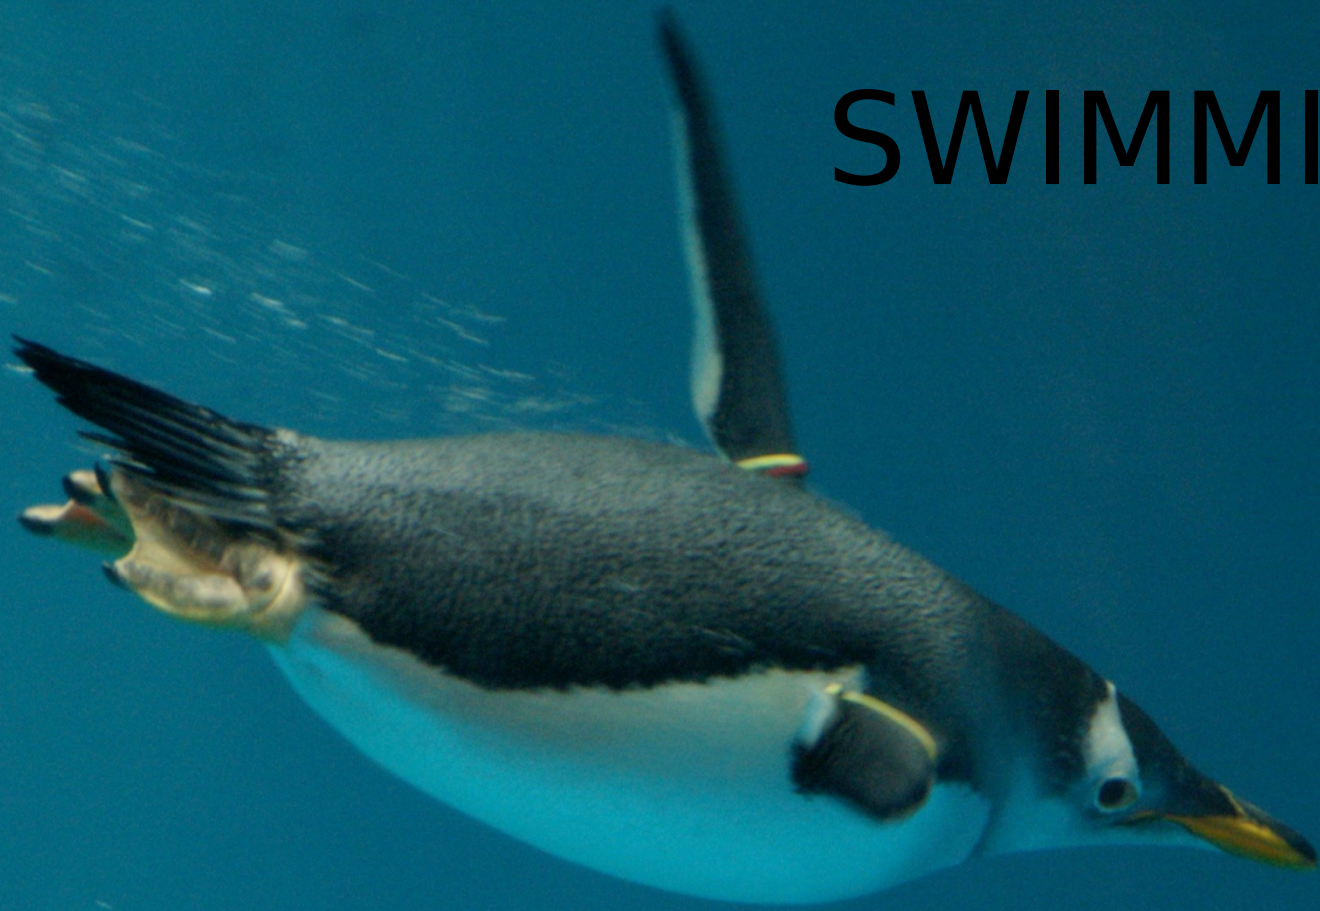

A photograph of two fluffy penguin chicks. The chick on the right is larger and has its wings spread out to the sides. Both chicks have dark heads, white faces, and dark beaks. They are covered in thick, greyish-brown down. The background is dark and textured, possibly a rock or a piece of fabric.

NESTING

- Usually in colonies
- Female-> one egg
- Male penguin lay egg several months or weeks
- Female-> Hunt

SWIMMING

- Excelent swimmers and divers
- Swallow chach under the water
- Longest dive-> 20 minuts

FOOD

- Mostly fishes
- Squids
- Fleshing shrimps

ENEMIES

- Orcas
- Sea leopards
- Eagles robbers
- Ice storms

THANKS
FOR
WATCHING
AND
LISTENING!
