

## **SLOVENIA, PTUJ, VISITING OTHER COUNTRIES AROUND THE WORLD**

**Slovenia is very small country between Croatia, Austria, Hungary and Italy.**

**The Capital of Slovenia is Ljubljana and the oldest town is Ptuj. Despite of small country, we have a lot of lakes , mountains, hills, nice and comfortable place where you can enjoy and so on. The most important is that we have 26 km<sup>2</sup> of coast.**

**Ptuj is the oldest town in Slovenia and you can see there a lot of old buildings built a lot of time ago. You can also see some monuments, one spa (the most beautiful in Slovenia), a lot of pubs, clubs and so on...But Ptuj is a little changed now. We can see now new trade center, new roads, and new bridge. There are less or actually no rush hour.**

**How can we travel? Where would you like to go and how long would you like to be there. ? Tell me a reason why would you like to stay there.**

- We can travel by plane, car, boat and train. Australia is the most beautiful country I have ever visited. I saw a lot of high buildings, cinemas, spas, monuments, roads, houses; I met a lot of new people. People are nice to everyone. You can get a job as soon as possible but just in that case if you want that job. Paychecks are much better and higher than here in Slovenia and you can buy a lot of interesting things like souvenirs because they are not expensive.**
- If you travel by plane you travel 24 hours or one day. I think that visiting the Australia is the most exciting thing that human being can imagine.**
- I have been there for three times and I must say that I enjoyed very much and if I would have more money, I would like to return.**
